Abstract

This is a Report of Deep Learning for Natural Language Processing

Introduction

ChatGPT is so popular and everyone is talking about it, all are talking about it but not coding for it ...

Methodology

There are models of my research.

M1: DL Model

The description of the first model.

M2: NLP Model

The description of the second model.

M3: DL-NLP Model

The description of the third model.

Experimental Studies

The figures shows it works so well

Table 1: this is the table 1

New Table			
M1			
M2			
M3			

Figure 1: this is obviously overfit

Conclusions

By good scientific writing in right format, it can express you idea of research clearly to others, therefore, we need to learn how to write a good report and even a paper.
